

Middle Department Inspection Agency 460 State Street Suite 401 Rochester, NY. 14608
Office 585-454-5191 Fax 585-454-2890 24/7 Emergency Inspection Service 1-800-600-6342

Since 1883 MDIA has performed electrical inspections across New York State, Pennsylvania, Delaware, Maryland, Virginia and West Virginia. It has always been our mission to provide safe, timely inspections at a reasonable price. Our affiliation with such organizations as International Association of Electrical Inspectors, Electrical Association of Western New York, Finger Lakes Building Officials Association, and Monroe County Fire Marshals and Inspectors Association, keeps us in touch with the educational process of our trade. The commitment by M.D.I.A. to our clients affords them a worry-free state of mind, knowing that our inspections protect them from unwanted liability and are backed by our multi-million-dollar insurance coverage. Add to that our daily availability to answer those tough code questions quickly, and you will see what separates us from the competition. If you currently use us, you already are enjoying these qualities, and we thank you! If you haven't yet called us, please do so! Call anytime!

Each of our inspectors reserves time daily between 7:00AM and 8:30AM to make themselves available to schedule your inspection appointment personally, as well as assisting with code questions or utility requirements.
